

We've added **435 Electric Delivery Vehicles** to our fleet across FY23, helping us deliver an additional **1.1 million parcels** each year

We've increased accuracy of our estimated delivery date prediction for customers, with **>95% tracking on-time or early** in FY24 year to date*

We have **150 new Toyota Super Long Wheelbase vans** hitting the road this peak season

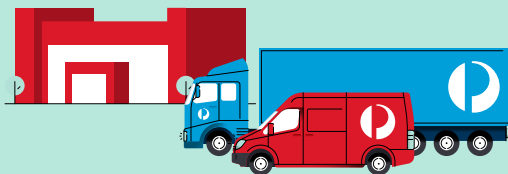

We have a network of over **4,000 Post Offices** (including PO Box locations), plus **700+ 24/7 Parcel Lockers**

How we're investing in our network this peak season

Launch of Australia Post Metro for some customers supporting priority next-day delivery

We've invested in Australia Post and StarTrack Road facilities across Australia – with over **40 new sites added or existing facilities upgraded** in FY23

Our **two-hour delivery window notification** tool has been rolled out across the network for most parcels, in preparation for this year's peak
